ICON2024

Accepted Papers for Oral Presentation

Sl.No	Submission ID	Title	Authors
1	98	RoMantra: Optimizing Neural Machine Translation for Low-Resource Languages through Romanization	Govind Soni and Pushpak Bhattacharyya
2	51	Enhancing Trust and Interpretability in Malayalam Sentiment Analysis with Explainable AI	Meharuniza Nazeem
3	130	LangBot-Language Learning Chatbot	Madhubala Sundaram, Pattabhi RK Rao and Sobha Lalitha Devi
4	78	A Corpus of Hindi-English Code-Mixed Posts to Hate Speech Detection	Prashant Kapil and Asif Ekbal
5	84	From Data to Insights: The Power of LM's in Match Summarization	Satyavrat Gaur, Pasi Shailendra, Rajdeep Kumar, Rudra Chandra Ghosh and Nitin Sharma
6	103	Story-Yarn : An Interactive Story Building Application	Hryadyansh Saraswat, Snehal D. Shete, Vikas Dangi, Kushagra Agrawal and Aditya Nigam

7	104	CM_CLIP: Unveiling Code-Mixed Multimodal Learning with Cross-Lingual CLIP Adaptations	Gitanjali Kumari, Arindam Chatterjee, Ashutosh Bajpai, Asif Ekbal and Vinutha B. Narayana Murthy
8	129	End to End Multilingual Coreference Resolution for Indian Languages	Sobha Lalitha Devi and Pattabhi RK Rao
9	10	Detecting AI-Generated Text with Pre-Trained Models Using Linguistic Features	ANNEPAKA YADAGIRI, Lavanya Shree, Suraiya Parween, Anushka Raj, Shreya Maurya and Partha Pakray
10	12	Quality Estimation of Machine Translated Texts based on Direct Evidence Approach	vibhuti kumari and Narayana Murthy Kavi
11	5	MULTILATE: A Synthetic Dataset on AI-Generated MULTImodaL hATE Speech	Advaitha Vetagiri, Eisha Halder, Ayanangshu Das Majumder, Partha Pakray and Amitava Das
12	29	Identification of Idiomatic Expressions in Konkani Language Using Neural Networks	Naziya Mahamdul Shaikh and Jyoti Pawar
13	39	Aiding Non-Verbal Communication: A Bidirectional Language Agnostic Framework for Automating Text to AAC Generation	Piyali Karmakar and manjira sinha
14	55	Automatic Sanskrit Poetry Classification Based on Kāvyaguṇa	Amruta Barbadikar and Amba Kulkarni
15	58	Towards Efficient Audio-Text Keyword Spotting: Quantization and Multi-Scale Linear Attention with Foundation Models	Rahothvarman P and Radhika Mamidi
16	90	Sentiment and sarcasm: Analyzing gender bias in sports through social media with deep learning	Sethulakshmi Praveen, Balaji TK, Sreeja SR and Annushree Bablani

17	99	Domain Dynamics: Evaluating Large Language Models in English-Hindi Translation	Soham Bhattacharjee, Baban Gain and Asif Ekbal
18	107	Improving Few-shot Prompting using Cluster-based Sample Retrieval for Medical NER in Clinical Text	Meethu Mohan C, Sneha Shaji Punnan and Jeena Kleenankandy
19	108	MalUpama - Figurative Language Identification in Malayalam -An Experimental Study	Reenu Paul, Wincy Abraham And Anitha S. Pillai
20	111	Standardizing Genomic Reports: A Dataset, A Standardized Format, and A Prompt-Based Technique for Structured Data Extraction	Tamali Banerjee, Akshit Varmora, Jay J. Gorakhiya, Pushpak Bhattacharyya, Sanand Sasidharan and Anuradha Kanamarlapudi
21	112	RoundTripOCR: A Data Generation Technique for Enhancing Post-OCR Error Correction in Low-Resource Devanagari Languages	Harshvivek Ankush Kashid and Pushpak Bhattacharyya
22	117	Survey on Computational Approaches to Implicature	Kaveri Anuranjana and Radhika Mamidi
23	38	We Care: Multimodal Depression Detection and Knowledge Infused Mental Health Therapeutic Response Generation	Palash Moon and Pushpak Bhattacharyya
24	82	Utilizing POS-Driven Pitch Contour Analysis for Enhanced Tamil Text-to-Speech Synthesis	Preethi Thinakaran, Anushiya Rachel Gladston, P Vijayalakshmi, T Nagarajan, Malarvizhi Muthuramalingam and Sooriya S
25	14	Exploring User Dissatisfaction: Taxonomy of Implicit Negative Feedback in Virtual Assistants	Moushumi Mahato, Avinash Kumar, Kartikey Singh, Javaid Nabi, Debojyoti Saha and Krishna Singh

26	33	Exploring Expected Answer Types for Effective Question Answering Systems for low resource language.	Chindukuri Mallikarjuna and Sangeetha Sivanesan
27	36	Precision Empowers, Excess Distracts: Visual Question Answering With Dynamically Infused Knowledge In Language Models	Manas Jhalani, Annervaz K M and Pushpak Bhattacharyya
28	46	Towards Enhancing Knowledge Accessibility for Low-Resource Indian Languages: A Template Based Approach	Srijith Padakanti, Akhilesh Aravapalli, Abhijith Chelpuri and Radhika Mamidi
29	47	Monolingual text summarization for Indic Languages using LLMs	Jothir Adithya T K, Nithish Kumar S, Felicia Lilian J And Mahalakshmi S
30	50	Comprehensive Plagiarism Detection in Malayalam Texts Through Web and Database Integration	Meharuniza Nazeem
31	53	Value to User's Voice: A Generative AI Framework for Actionable Insights from Customer Reviews in Consumer Electronics	Radhika Mundra, Bhavesh Kukreja, Aritra Ghosh Dastidar, Kartikey Singh and Javaid Nabi
32	54	Exploring Kolmogorov Arnold Networks for Interpretable Mental Health Detection and Classification from Social Media Text	Ajay Surya Jampana, Mohitha Velagapudi and Sachin Kumar S
33	61	Konkani Wordnet Visualizer as a Concept Teaching-Learning Tool	Sunayana R. Gawde, Jayram Ulhas Gawas, Shrikrishna R. Parab, Shilpa Neenad Desai and Jyoti Pawar
34	66	Human vs Machine: An Automated Machine-Generated Text Detection Approach	Urwah Jawaid, Rudra Roy, Pritam Pal, Srijani Debnath, Dipankar Das and Sivaji Bandyopadhyay

35	74	A Systematic Exploration of Linguistic Phenomena in Spoken Hindi: Resource Creation and Hypothesis Testing	Aadya Ranjan, Sidharth Ranjan and Rajakrishnan Rajkumar
36	91	An Aid to Assamese Language Processing by Constructing an Offline Assamese Handwritten Dataset	Debabrata Khargharia
37	94	Pronominal Anaphora Resolution in Konkani language incorporating Gender Agreement	Poonam A. Navelker and Jyoti Pawar
38	96	Reconsidering SMT Over NMT for Closely Related Languages: A Case Study of Persian-Hindi Pair	Waisullah Yousofi and Pushpak Bhattacharyya
39	122	Survey of Pseudonymization, Abstractive Summarization & Spell Checker for Hindi and Marathi	Rasika Ransing, Mohammed Amaan Dhamaskar, Ayush Rajpurohit, Amey Dhoke and Sanket Dalvi
40	126	Synthetic Data and Model Dynamics based Performance Analysis for Assamese-Bodo Low Resource NMT	Kuwali Talukdar, Prof. Shikhar Kumar Sarma and Kishore Kashyap
41	6	Sumotosima : A Framework and Dataset for Classifying and Summarizing Otoscopic Images.	Eram Anwarul Khan and Anas Anwarul Haq Khan
42	43	Towards Understanding the Robustness of LLM-based Evaluations under Perturbations	Manav Chaudhary, Harshit Gupta, Savita Bhat and Vasudeva Varma
